FCC Youth and Children Picture Publication Policy and Consent

It is our desire at First Christian Church to act in ways that limit the risk of our youth and children to abuse of a sexual or non-sexual nature. We also wish to promote the communal and fellowship aspects of the youth and children's activities through many different ways, especially through online media such as our church website and social networking sites. This includes publishing pictures of youth and children's events that may include pictures of specific youth and/or children. We understand that online venues can be fertile ground for abusers and wish to minimize the risks of such abuse. Thus, we want to make parents and guardians of youth and/or children aware of our policies regarding the publication of pictures, videos, audio, etc. of minors and explicitly gain their permission for the publication of media containing images and/or recordings of their youth and/or children. It will be assumed that

permission is not granted to publish such images, video, or audio, unless this permission is granted.

Our policies regarding the publication of images, video, audio or other media are:

- To have approval from at least one parent or legal guardian for the publication of a picture on any publication to which First Christian has control.
- To never publish the name of a child or youth either in print, visual, or audio format in conjunction with the visual representation of a child.
- To never publish anything indecent or sexually suggestive with a youth or child involved.
- To remove any picture of any youth or child at the request of the minor's parents or guardians within a timely manner.

Permission to publish photos, video, audio, or other media of youth is not assumed until it has been explicitly given. If you wish to give your consent for FCC to publish photos, video, audio, or other media of your youth, please return the signed form below.

I, _____, am a legal parent or guardian of _____, and I wish to give my permission to First Christian Church Youth and Children's Ministries to publish pictures, videos, audios, and other media of my youth and or child with the understanding that such publication will be guided by the policies above.
